Product/s: ***Rolls and strips of wood veneer for the covering of edges and mouldings.***

Melamine synthetic edges, PVC calendered edges, PVC extruded edges.

Ribbons and rolls of wood veneer for the reinforcement of edges. Thicknesses from 1mm to 7mm.

It passes the requirements demanded by the General Regulation for the Concession and Use of the Quality's Symbol of AIDIMME and its Technical Annex IX.

Basic standard of application*:

Melamine edges

Edge bonding test UNE 56875

PVC edges (calendered and extruded)

Edge bonding test UNE 56875

Dimensions and tolerances (Laboratory method)

Dimensional stability at elevated temperature EN 438-2 (Section 17)

Colour fastness to light EN 15187

Rolls and strips of veneer

Edge bonding test UNE 56875

Resistance to humidity variations UNE 56875

Adhesion of the support (Laboratory method based on UNE 56875)

Moisture content EN 322

Dimensions and tolerances (Laboratory method)

Joint resistance to temperature (Laboratory method)

Clean cut (Laboratory method)

Ribbons and rolls of wood veneer

Edge bonding test UNE 56875

Bonding quality UNE 56705 H2

Moisture content UNE 56710 EN 322

Clean cut (Laboratory method)
